

Here To Help STADIUMS

CB 1-e

When fans head out to a game, they are looking to cheer for their favorite team, eat a hot dog and spend quality time with family and friends. It's a tradition that dates back more than a century, and it's important to be continually proactive in keeping everyone safe.

A number of stadiums and arenas already have taken it upon themselves to be more vigilant, from the parking lot to the entrance gate, and Code Blue Corporation is happy to do its part to strengthen that commitment to security.

Fans buy a ticket to have a good time. By implementing Code Blue's sophisticated systems, stadiums and arenas ensure that everyone will have the peace of mind of knowing that they're being protected.

By the Numbers

7.3%

Percentage of all violent crimes that occur in parking facilities, according to U.S. Bureau of Justice Statistics.

10%

Getting a quick fix on a location when calling from a cell phone can happen as little as 10% of the time.

350,000

Annual sudden cardiac arrest victims, according to the American Heart Association.

Code Blue offers a wide range of sophisticated emergency communication solutions specifically designed to provide help at the touch of a button® for your location, and empower you to act quickly and intelligently before, during and after an incident. Here are examples of how we can help people at your location.

WHY CODE BLUE?

SITUATION	Suspicious individual	Flat tire or car trouble	Visitor lost on campus	Cardiac arrest	Test devices	Malfunctioning parking gate	Urgent announcement
SOLUTION							
FEATURE	Durable and visible contact can be made with first responders when help is needed	Clear, reliable communication when the button is pressed	Pinpoint location helps first responders know exactly how to help	Swift assistance can be provided during incidents of sudden cardiac arrest	Configure hardware and software systems on one platform	Contact closures can be used to trigger lights, open doors or integrate with access control devices	Direct communication with large campus audiences
BENEFIT	Direct communication with campus security/first responders	Request assistance in a swift and reliable manner	Visible way to find and ask for help on large campuses	Access AED while simultaneously speaking with first responders	Save time and money by not performing regular visits	Drivers can request help; operators can activate gates remotely	An intelligible solution ensuring messages are both heard and understood
