

Here To Help MUNICIPALITIES

Governments and municipalities are sworn to serve and protect their communities. And that is exactly what they do, but downtown streets, parks, garages and other locations can require a variety of needs that cannot be resolved with just one solution.

Fortunately, Code Blue Corporation offers a wide array of cost-effective emergency communication solutions specifically designed for safety that won't break your budget.

Code Blue's comprehensive systems allow first responders to react in an efficient and effective manner whether it's a suspicious individual, medical emergency or natural disaster. Additionally, the implementation of these sophisticated solutions can be attractive to officials looking to minimize their legal considerations by offering another level of security or reclaim potentially dangerous locations by increasing visibility and shining as a beacon for those in need.

That way, you can be sure that citizens will be protected today and for decades to come.

CB 1-e

By the Numbers

1.2
million

Violent crimes committed in the U.S., according to a FBI report.

\$390
million

Estimated value of property lost due to theft, according to the FBI.

10%

Getting a quick fix on a location when calling from a cell phone can happen as little as 10% of the time.

Code Blue offers a wide range of sophisticated emergency communication solutions specifically designed to provide help at the touch of a button® for your location, and empower you to act quickly and intelligently before, during and after an incident. Here are examples of how we can help people at your location.

WHY CODE BLUE?

SITUATION	Suspicious individual	Flat tire or car trouble	Visitor lost on campus	Cardiac arrest	Test devices	Malfunctioning parking gate	Urgent announcement
SOLUTION							
FEATURE	Durable and visible contact can be made with first responders when help is needed	Clear, reliable communication when the button is pressed	Pinpoint location helps first responders know exactly how to help	Swift assistance can be provided during incidents of sudden cardiac arrest	Configure hardware and software systems on one platform	Contact closures can be used to trigger lights, open doors or integrate with access control devices	Direct communication with large campus audiences
BENEFIT	Direct communication with campus security/first responders	Request assistance in a swift and reliable manner	Visible way to find and ask for help on large campuses	Access AED while simultaneously speaking with first responders	Save time and money by not performing regular visits	Drivers can request help; operators can activate gates remotely	An intelligible solution ensuring messages are both heard and understood

COMMON USES

Our products are designed to assist campus environments that incorporate buildings, open spaces and entry points, and handle shifting amounts of traffic to help keep students, citizens, employees and visitors safe, indoors and out.

Popular PRODUCTS

CB 1-s

The 1 series sets the industry standard for emergency blue light phone towers with its wide array of features and durable quarter-inch steel construction.

Blue Alert® MNS

Deliver alerts through multiple platforms, including blue light phones, public address speakers, emails, social media and more.

IP5000

A unique mix of features - full duplex capabilities, SIP standards, self-monitoring and fault reporting - designed to meet your communication needs.

ToolVox® X3

Provision, monitor, test and support your emergency communication devices with this hub for blue light phones and mass notification.

CB 2-a

Our popular wall-mounted enclosures are a perfect way to provide communication for parking garages, entrances and hallways.

CB 1-s

Code Blue Help Points® not only provide direct communication with first responders, but they incorporate multiple signaling devices to improve safety and communication.

The city of Santa Ana, California recently installed Help Points® equipped with multiple tools - public address speakers, camera mounts, dual faceplates, custom logos - customized to combat crime downtown and connect citizens with police while still projecting an inviting atmosphere. Within days, they had already helped police arrest a man who delivered a false bomb threat.

The additions also were met with positive feedback from the community, providing peace of mind for a number of local business owners.

“Just knowing in the event there isn’t a police presence that they can go to that is nice,” a business owner told the local media.

Installation Locations

Code Blue is dedicated to providing a wide range of diverse emergency communication solutions that can bolster the safety and security at municipal environments.
