

Here To Help K-12 SCHOOLS

CB 1-s

Sadly, tragic events from Sandy Hook to Columbine and Oklahoma City to Tuscaloosa have taught us that it's essential to have a sufficient emergency plan in place to prevent more of these nightmare scenarios from taking place.

That's why Code Blue Corporation offers a wide range of sophisticated emergency communication solutions that can bolster the safety and security of any school environment, from kindergarteners to seniors.

Safety should not be the primary educational concern, whether you're a student, teacher or parent. Code Blue's comprehensive systems ensure that when class starts the focus can be on the lesson plan because a strong emergency plan is already in place.

By the Numbers

10%

Getting a quick fix on a location when calling from a cell phone can happen as little as 10% of the time.

51%

Students who believe their school is very effective at keeping the campus safe.

88%

Public schools with a written plan on how to respond to an active shooter.

Code Blue offers a wide range of sophisticated emergency communication solutions specifically designed to provide help at the touch of a button® for your location, and empower you to act quickly and intelligently before, during and after an incident. Here are examples of how we can help people at your location.

WHY CODE BLUE?

SITUATION	Suspicious individual	Flat tire or car trouble	Visitor lost on campus	Cardiac arrest	Test devices	Malfunctioning parking gate	Urgent announcement
SOLUTION							
FEATURE	Help Point®	Emergency Speakerphone	Help Point®	AED Housing	Systems Management	Call Box	Public Address
BENEFIT	Durable and visible contact can be made with first responders when help is needed	Clear, reliable communication when the button is pressed	Pinpoint location helps first responders know exactly how to help	Swift assistance can be provided during incidents of sudden cardiac arrest	Configure hardware and software systems on one platform	Contact closures can be used to trigger lights, open doors or integrate with access control devices	Direct communication with large campus audiences
BENEFIT	Direct communication with campus security/first responders	Request assistance in a swift and reliable manner	Visible way to find and ask for help on large campuses	Access AED while simultaneously speaking with first responders	Save time and money by not performing regular visits	Drivers can request help; operators can activate gates remotely	An intelligible solution ensuring messages are both heard and understood
