

Here To Help CORPORATIONS

The business world is a never-ending whirlwind. From profitability and productivity to potential liabilities threatening your operations, it can be a never-ending barrage of issues. And at the center of it all is the health and welfare of your most valuable asset: your team.

That's why Code Blue Corporation offers a wide array of comprehensive emergency communications solutions designed specifically with safety in mind. Whether it's a suspicious individual or a medical emergency, Code Blue systems allow first responders to react in an efficient and effective manner.

With Code Blue's systems helping keep employees safe, you will find that both you and your team are a lot happier. And we all know happy employees are productive ones.

CB 2-e

By the Numbers

Workplace incidents recorded by the U.S. Department of Labor in 2015.

Property crimes, including theft, that occur in parking lots or garages.

Estimated value of property lost due to theft, according to the FBI.

Code Blue offers a wide range of sophisticated emergency communication solutions specifically designed to provide help at the touch of a button® for your location, and empower you to act quickly and intelligently before, during and after an incident. Here are examples of how we can help people at your location.

WHY CODE BLUE?

SITUATION	Suspicious individual	Flat tire or car trouble	Visitor lost on campus	Cardiac arrest	Test devices	Malfunctioning parking gate	Urgent announcement
SOLUTION							
FEATURE	Durable and visible contact can be made with first responders when help is needed	Clear, reliable communication when the button is pressed	Pinpoint location helps first responders know exactly how to help	Swift assistance can be provided during incidents of sudden cardiac arrest	Configure hardware and software systems on one platform	Contact closures can be used to trigger lights, open doors or integrate with access control devices	Direct communication with large campus audiences
BENEFIT	Direct communication with campus security/first responders	Request assistance in a swift and reliable manner	Visible way to find and ask for help on large campuses	Access AED while simultaneously speaking with first responders	Save time and money by not performing regular visits	Drivers can request help; operators can activate gates remotely	An intelligible solution ensuring messages are both heard and understood
