IP5000 VOIP SPEAKERPHONE

Code Blue®

*See next page for all models and styles.

Product Description

The **IP5000** is a SIP compatible VoIP speakerphone that provides a reliable, hands-free link to first responders. Available with multiple button and keypad options, it includes a built-in contact closure that may be used to activate a strobe or camera or can be used for door access applications. It is an excellent choice for parking decks, hallways and building entrances.
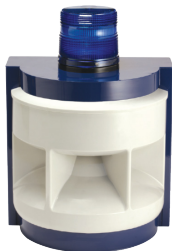

Standard Features

- ✔ Full duplex
- ✔ PoE power
- ✔ Self-monitoring
- ✔ Proprietary screws for vandal resistance
- ✔ Can drive PAS messages
- ✔ Piezoelectric buttons that won't stick or jam
