

Product Description

All Code Blue painted products undergo an intensive four-coat process that begins with a one-component organic zinc rich primer that provides excellent corrosion resistance and minimal maintenance. The process is then finished with topcoat baked-on polyurethane enamel for maximum durability and shine for a long-lasting finish that is weather, graffiti, and UV resistant.

By using these Paint Maintenance options, you can be sure that your products will maintain their brilliance long after installation.

Paint Restoration Kit

Restore the shine to Code Blue painted units with faded or scuffed paint.

Paint Refurbish Program

Repair damaged paint or scratched surfaces with the Paint Refurbish Option. Simply ship your products back to Code Blue, where they will be stripped of their components, painted and then reassembled to help your units look like new again. Contact [Customer Service](#) for more details.

Touch Up Paint

Code Blue **Touch Up Paint** is the perfect way to repair minor scratches, dents and scuffs on any painted Code Blue enclosure. Available in both brush-on and spray can options, this single stage touch up paint is a fast and easy solution that provides long-lasting repairs for Code Blue's automotive grade finish available on its products. No additional hardeners or activators required.

Options

✓ 1.3oz Brush-On Bottle

✓ 7.5oz Spray Can

✓ 6 Standard Colors: Gloss White, Gloss Black, Safety Blue, Safety Red, Safety Yellow, & Bright Silver.

✓ Contact Customer Service for additional color requests.

✓ Please note, due to shipping regulations, touch up paint products are only able to be shipped via ground services. Expedited 1 or 2-day air shipments are not available for touch up paint.

✓ **IMPORTANT NOTE:** *If you are using touch up paint to cover bare metal such as carbon steel or stainless steel, it is recommended to first apply a layer of automotive-grade primer prior to applying touch-up paint.*

Note: Specifications subject to change without notice or obligation on the part of Code Blue Corporation.
