

Product Description

All Code Blue painted products undergo an intensive four-coat process that begins with a one-component organic zinc rich primer that provides excellent corrosion resistance and minimal maintenance. The process is then finished with topcoat baked-on polyurethane enamel for maximum durability and shine for a long-lasting finish that is weather, graffiti and UV resistant.

By using these Paint Maintenance options, you can be sure that your products will maintain their brilliance long after installation.

Paint Restoration Kit

Restore the shine to Code Blue painted units with faded or scuffed paint.

Paint Refurbish

Emergency

Repair damaged paint or scratched surfaces with the Paint Refurbish Option. Simply ship your products back to Code Blue, where they will be stripped of their components, painted and then reassembled to help your units look like new again.

Touch Up Paint Kit*

The Touch Up Paint Kit is the perfect way to repair minor scratches, dents and scuffs on any painted Code Blue enclosure. Available in both standard and custom colors, the Touch Up Paint Kit is a fast and easy solution that provides long-lasting repairs for Code Blue's automotive-grade finish available on its products.

* For optimal performance, use within seven days upon receipt. Once mixed, product will last 4-8 hours. For best results, use immediately.

Standard Features

- ✓ 1.3-ounce, one-time use kit
- ✓ 7 standard colors: Dark Bronze, Gloss White, Gloss Black, Safety Blue, Safety Red, Safety Yellow, Bright Silver
