

TOOLVOX[®] XS

Product Description

Code Blue's award-winning emergency management platform for your blue light phone network can be deployed using a **ToolVox[®] XS Server Appliance**. This 1U rack-mountable server, combined with **Blue Alert Software**, provides the ability to build a hub to effectively manage unique real-time monitoring & reporting capabilities. It also provides connections to PBX, public telephone (PSTN) and Internet (ISP) networks, in addition to third party security platforms.

Software

BLUE ALERT
CONNECT

BLUE ALERT
MONITOR

Generate dial tone for IP and analog emergency phones. Support 200+ simultaneous calls

Connect to PBX, public telephone (PSTN) and internet (ISP) networks and third party security platforms

Schedule reports and run tests of connected devices to ensure the speakers, buttons and microphones are working properly at all times.

Remotely monitor Code Blue phones and third-party devices.

Popular Upgrades and Accessories

Blue Alert Connect, Advanced Paging License:

Set up multicast and scheduled automated paging through our Blue Alert[®] Connect Platform.

FXO/FXS Gateways:

FXO & FXS gateways connect analog phones and PSTN trunk lines to IP networks.
