

To help keep your Help Point® looking as good as the day it was delivered, Code Blue offers an easy to use **Paint Restoration Kit**. This kit contains several items that can be used along with regularly scheduled maintenance to keep your product performing at the highest level possible. Below are details of the kit's contents and instructions on how to use the products.

KIT CONTENTS

- White Polishing Pad
- Black Polishing Pad
- Apron
- Rubbing Compound
- Polish
- Car Wash Soap
- Microfiber Towel
- Cleaning Sponge

DIRECTIONS FOR USE:

- Apply compound using an air or electric buffer (1,400-2,000 rpm).
- Shake container well before using.

QUARTERLY MAINTENANCE STEPS:

- Clean unit's surface of all dirt and debris using the car wash soap and sponge. Dry with a clean microfiber towel.
- Clean unit with paint cleaner wax.
- Spray a two-by-two-foot area with Perfect-It Clean and Shine and buff with microfiber towel.

YEARLY MAINTENANCE STEPS:

- Clean unit's surface of all dirt and debris using the car wash soap and sponge. Dry with a clean microfiber towel.
- Apply enough Step 1 polish compound to cover a two-by-two-foot area. For best results, use enough to leave a thin, wet film on the surface for one or two passes with the buffer (white pad) before it begins to dry.
- Start the machine and buff using light to medium pressure. Reduce pressure as the compound begins to dry. Spur pad as necessary. Wipe with a clean microfiber towel.
- Apply enough Step 2 Perfect-It Polish to work a two-by-two-foot area. For best results, use enough compound to leave a thin, wet film on the surface for one or two passes with the buffer (black pad) before it begins to dry.
- Start the machine and buff using light to medium pressure. Reduce pressure as the compound begins to dry. Spur pad as necessary. Wipe with a clean microfiber towel.
- Buff with a clean microfiber towel.
