2 End User License Agreement

IMPORTANT – READ CAREFULLY. This is a legal agreement between you (either an individual or an entity), the end user, and Code Blue Corporation of Holland, Michigan. By opening the sealed CD-ROM packet(s) and installing or otherwise using the software, you agree to be bound by the terms of this End User License Agreement (EULA). If you do not agree to the terms of this Agreement, promptly return the disk package and accompanying items (including written materials, binders, or other containers) to the place you obtained them.

1. **GRANT OF LICENSE.** This EULA permits you to use one copy of the Code Blue software product (“Software”) on any single computer, provided the software is in use on only one computer at any time. If you have multiple licenses for the software, then at any time you may have as many copies of the software in use as you have licenses. The software is “in use” in a computer when it is loaded into the temporary memory (i.e., RAM) or is installed into the permanent memory (e.g. hard disk, CD-ROM or other storage device) of that computer. However, a copy installed on a network server for the sole purpose of distribution to other computers is not “in use.” If the anticipated number of users of the software will exceed the number of applicable Licenses, you must have a reasonable mechanism or process in place to assure that the number of persons using the software concurrently does not exceed the number of licenses. If the software is permanently installed on the hard disk or other storage device of a computer (other than a network server), then the person authorized to use such computer also may use the software on a portable computer, laptop and home computer. If such person’s authorization to use such computer ceases for any reason (e.g. termination of employment), then such person’s authority to use the software on a portable computer, laptop and home computer shall cease.

2. **COPYRIGHT.** The software is owned by Code Blue Corporation or its suppliers and is protected by United States copyright laws and international treaty provisions. Therefore, you must treat the software like any other copyrighted material (e.g., books or musical recordings), except that you may either: a) make one copy of the software solely for backup or archival purposes, or b) transfer the software to a single hard disk provided you keep the original solely for backup or archival purposes.

3. **OTHER RESTRICTIONS.** The license is your proof of license to exercise the rights granted herein and must be retained by you. You may not rent or lease the software, but you may transfer your rights under this license on a permanent basis provided that you transfer this license, the software and all accompanying written materials, you retain no copies, and the recipient agrees to the terms of this license. You may not decompile or disassemble the software. If the software is an update, any transfer must include the update and all prior versions.

4. **MULTIPLE MEDIA SOFTWARE.** If the software package contains compact discs or other media, then you may use only the media appropriate for your single designated computer or network server. You may not use the other media on another computer or computer network, or loan, rent, lease or transfer them to another user except as part of a transfer or other use expressly permitted by this license.

5. **LIMITED WARRANTY.** Code Blue warrants that the software will perform substantially in accordance with the accompanying written materials and will be free from defects in materials and workmanship under normal use and service for a period of 90 days from the date of receipt. Any implied warranties on the software are limited to 90 days. Some states do not allow limitations on the duration of an implied warranty, so the above limitations may not apply to you. This limited warranty gives you specific legal rights. You may have others, which vary from state to state.

6. **CUSTOMER REMEDIES.** Code Blue’s entire liability and your exclusive remedy shall be, at Code Blue’s option, either (a) return of the price paid or (b) repair or replacement of the software that does not meet Code Blue’s Limited Warranty and that is returned to Code Blue with a copy of your receipt. This Limited Warranty is void if failure of the software has resulted from accident, abuse, or misapplication. Any replacement software will be warranted for the remainder of the original warranty period or 30 days, whichever is longer. Neither these remedies nor any product support services offered by Code Blue are available for this USA version product outside the United States of America.

7. **NO OTHER WARRANTIES.** Code Blue disclaims all other warranties, either expressed or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose, with respect to the software, the accompanying written materials and any accompanying hardware.

8. **NO LIABILITY FOR CONSEQUENTIAL DAMAGES.** In no event shall Code Blue or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information or other pecuniary loss) arising out of the use of or inability to use the software, even if Code Blue has been advised of the possibility of such damages. Because some states do not allow the exclusion or limitations of consequential or incidental damages, the above limitations may not apply to you.

U. S. GOVERNMENT RESTRICTED RIGHTS. The software and documentation are provided with restricted rights. Use duplication, or disclosure by the government, is subject to restrictions as set forth in subparagraph (c) (1) (ii) of the Rights in Technical Data and Computer Software clause as DFARS 252.227-7013 or subparagraphs (c) (1), (2) and (3) of the Commercial Computer Software – Restricted Rights at 48 CFR 52.227-19, as applicable, and any amendments thereto. Contractor/manufacturer is Code Blue Corporation, 259 Hedcor Street, Holland, Michigan 49423 USA. This Agreement is governed by the laws of the State of Michigan.

For more information about Code Blue’s licensing policies, please call Code Blue at 800.205.7186.

3 Install Instructions

Please note: Once logged into the ToolVox® Administration, click on the License Key Administration tab under Code Blue Software. A green box will show which EMS software (Standard, Advanced or None) is installed on the ToolVox. If the ToolVox shows Standard or Advanced, please skip to the section 6 EMS AGENT INSTALLATION.

From the ToolVox System Status menu, go to Code Blue Software > License Key Administration (ill. 3A).

Illustration 3A

4 Install Key

Enter your license key in the License Key field and click Submit. The license key will enable the Event Management System® (EMS) on your ToolVox server for EMS Agent connections.

5 EMS Administration

Go to Code Blue Software > EMS Administration.

The EMS ADMINISTRATION screen appears (ill. 5A).

1. Enter the AUTHORIZATION CODE for the EMS Agent to access the EMS system.

Enter the IP ADDRESS of the EMS Agent or the subnet for accessing the system. Leaving this blank will allow any IP address to access the system. Click Update information.

Illustration 5A

Examples:

- 172.1.100.0/255.255.255.0 allows any IP address that begins with 172.1.100 to access the EMS system.
 - 172.1.100.10/255.255.255.255 only allows the IP address 172.1.100.10 to access the EMS system.
2. Upload custom location maps for EMS. Custom maps must be in .jpg or .png format and no larger than 800 x 800 pixels.
 3. You must select EMS agents to monitor. Then click update EMS agents.

6 EMS Agent Installation

1. Click on EMS Client from the Home page (ill. 6A)
2. Save the Client
3. Run the Client
4. Finish

Illustration 6A

7 EMS Agent Configuration

Double click the EMS Agent icon on the desktop. The following screen appears (ill. 7A).

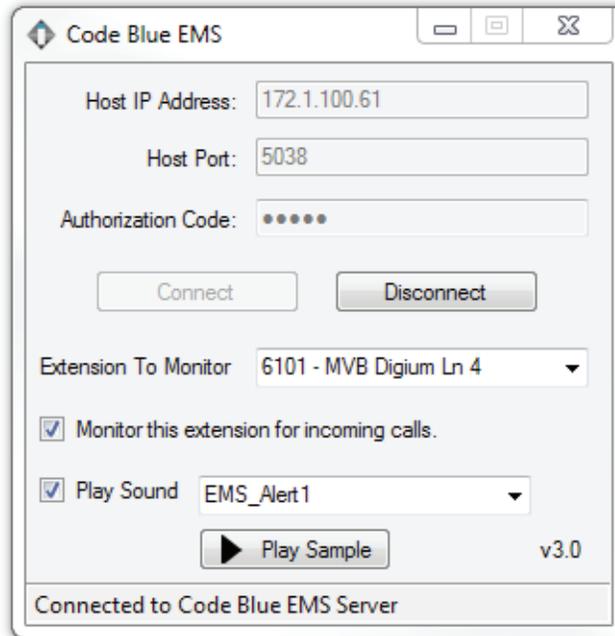

Illustration 7A

HOST IP ADDRESS: Enter the IP address of the ToolVox Media Gateway.

HOST PORT: Do not change value unless directed to do so (5038 default).

AUTHORIZATION CODE: Key in the authorization code for EMS system and click Connect.

EXTENSION TO MONITOR: Enter the extension you wish to monitor. This is the Business Phone set up in ToolVox. **This can be a SIP enabled phone or an analog desk phone directly connected to the ToolVox.**

Click the check box next to “Monitor this extension for incoming calls”.

Choose if you want an audible sound as well as the visual popup.

Minimize the EMS Agent configuration menu using the “-” button in the upper right-hand corner.

To change settings, click on the icon in your system tray.

8 EMS Programming in Code Blue Devices

On the bottom of the second page of each device you will be presented with the following categories:

IN-CALL COMMANDS: These commands will be utilized on the EMS Agent screen to control the unit (ill. 8A).

In-Call Commands

#	Command Text	DTMF Tone
1	Speaker Vol. Up	22
2	Speaker Vol. Down	23
3	Mic Volume Up	20
4	Mic Volume Down	21
5	Open Gate	12
6	Play Message	01
7		
8		

Illustration 8A

EMS Unit Location Information is next and consists of selecting the Latitude/Longitude map location by finding the location on a MS Bing™ map (ill. 8B). The latitude and longitude values may also be keyed in.

EMS Unit Location Information

Latitude

Longitude

Illustration 8B

Detailed Unit Location section allows you to select the uploaded map (configured in EMS/UPD Administration) and place a Code Blue unit on the map in the desired location (ill. 8C). The map must first be uploaded under EMS Administration.

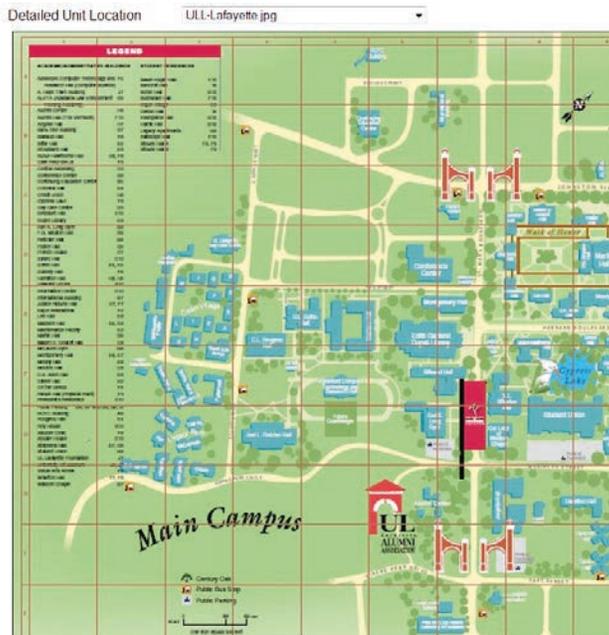

Illustration 8C

Location Description/Notes allows you to enter specific location/unit information to be displayed on the EMS Agent screen (ill. 8D).

Location Description / Notes

Code Blue CB 1-s east parking lot. Contact officer Joe at 555-1212 for dispatch.

Illustration 8D

Device Camera URL's section allows two IP camera streams to be entered, which will be displayed on the EMS Agent screen (ill. 8E). To test these camera streams, view in VLC.

Device Camera URL's

Camera 1	<input type="text" value="rtsp://admin:12345@172.1.100.32"/>
Camera 2	<input type="text"/>

Illustration 8E

Unit Address Info section allows for the physical address to be documented for display on the EMS Agent screen (ill. 8F).

Unit Address Info

Address	<input type="text" value="259 Hedcor St."/>
City	<input type="text" value="Holland"/>
State/Province/Region	<input type="text" value="MI"/>
Postal Code	<input type="text" value="49423"/>
Country	<input style="border-bottom: none; border-right: none; border-left: none; border-top: none;" type="text" value="United States"/> ▼

Illustration 8F

After configuring your Code Blue device, click the FINISH button on the last page. You will see the red APPLY CONFIGURATION CHANGES bar at the top of the page. After clicking it, click the CONTINUE WITH RELOAD radio button to finish applying the changes. Programming must then be pushed to the phone.

9 EMS Advanced Agent Use

When a red button push is initiated, calls come into your extension and you will receive a popup indicating an incoming call (ill. 9A).

Illustration 9A

Upon answering the phone, you will be presented with a call management screen, Call Notes (ill. 9B).

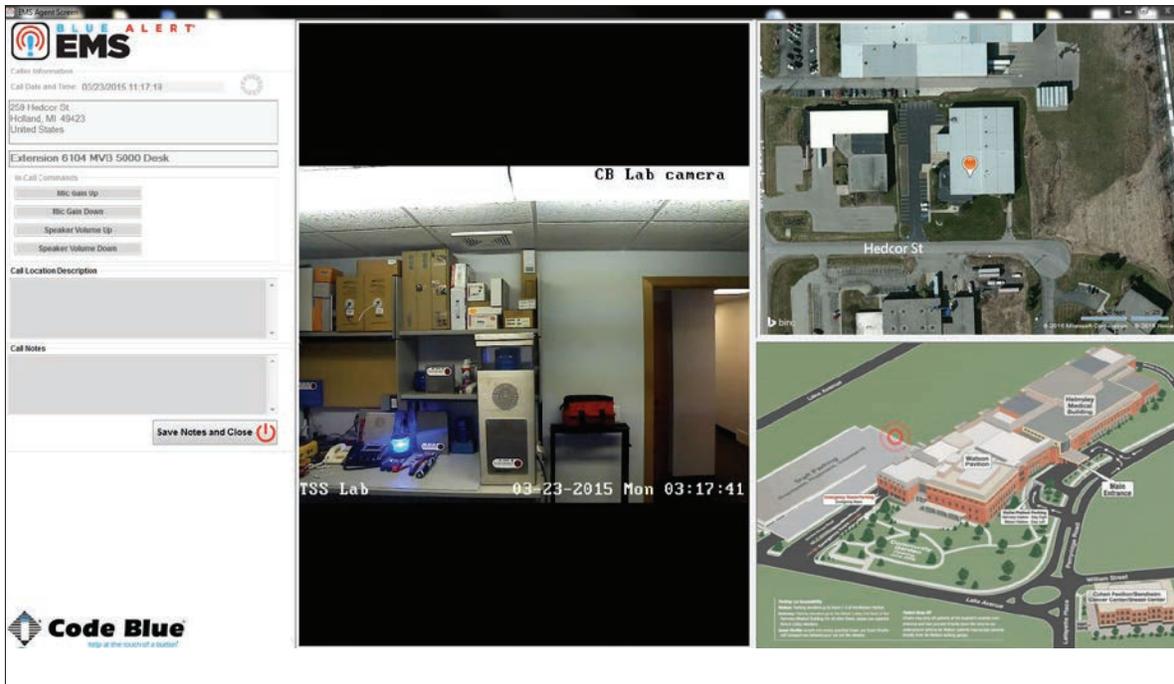

Illustration 9B

Caller Information: Includes Caller ID Name, phone number and address location.

Call Date and Time: Displayed directly below address.

Map: If selected in the database, a map is displayed on the right side of the screen.

In-Call Commands: Unit control buttons, if configured for the unit, are located below the caller information section.

Call Notes: Text section is available to enter detailed information about the call.

NOTE: EMS database information for Address, Mapping and unit control is entered during the setup of Code Blue Device extensions in ToolVox. If this information is not entered or the incoming call is not a Code Blue device, then only the Caller ID Name and Number will be displayed if transmitted by your service provider or PBX equipment.

With a 6-line IP desk phone you have the ability to answer up to six calls at once. Each call can be answered by pressing the flashing line, placing the current call on hold. Additional call management screens will be displayed for each call. To switch between calls, simply press the flashing call button; the current call will be placed on hold and you will be connected to the new call. Switch between the calls by simply pressing the appropriate call button on your phone. End calls by hanging up. When the call is finished you will have the option to save your notes or discard them.

10 Viewing EMS Call Logs

EMS records every call made to and from the system. Each call is accompanied by the notes saved after the call.

To access the call detail records, click on EMS Records from the administration page (ill. 10A).

The screenshot shows the 'ToolVox System Status' page. The interface includes a top navigation bar with 'Admin', 'CDR Reports', 'EMS Records', 'IP Info', and 'Help'. A left sidebar contains a menu with categories like 'Setup', 'Admin', 'Basic', 'Code Blue Software', 'Inbound Call Control', 'Internal Options & Config', and 'Third Party Addon'. The main content area is titled 'ToolVox System Status' and contains several sections:

- ToolVox Notices:** No new notifications. [show all](#)
- ToolVox Statistics:**

Total active calls	0
Internal calls	0
External calls	0
Total active channels	0
- ToolVox Connections:**

IP Phones Online	0
------------------	---
- Uptime:**
 - System Uptime: 2 weeks, 1 days, 4 hours, 12 minutes
 - PBX Engine Uptime: 2 weeks, 1 day, 4 hours, 11 minutes
 - Last Reload: 2 days, 3 hours, 18 minutes
- System Statistics:**
 - Processor:** Load Average: 0.24
 - Memory:** App Memory: 11%, Swap: 0%
 - Disks:** /: 0%, /boot: 8%, /dev/shm: 0%
 - Networks:** eth0 receive: 0.50 KB/s, eth0 transmit: 0.81 KB/s, dev20763 receive: 0.00 KB/s, dev20763 transmit: 0.00 KB/s
- Server Status:**
 - PBX Engine: OK
 - MySQL: OK
 - Web Server: OK
 - SSH Server: OK

The footer of the page displays the 'TOOLVOX' logo and version information: 'ToolVox X3 Version 3.0.2-1' and 'ToolVox is a registered trademark of Code Blue Corporation'.

Illustration 10A

On the EMS Records page you will have options to filter and archive calls. You will also see the caller ID of the unit that made the call, the length of the call, the station that answered the call and the date, time, duration of the call. You have quick buttons to listen to the recorded call, play any associated video and download a .zip file with all the associated media. (ill. 10B)

The screenshot shows the TOOLVOX interface for EMS Records. At the top, there are navigation tabs: Admin, CDR Reports, EMS Records (selected), IP Info, and Help. The user is logged in as 'admin'. Below the navigation, there are buttons for 'Filter Records' and 'Record Archiving'. A table displays a list of call records with the following columns: Call Date, Duration, Caller ID, Source, Dest, Disposition, Media, File Size, Archive Date, and Purge Date. The table contains 20 rows of data, including call dates from 2013/06/11 to 2014/04/18. Each row has a checkbox for selection and a set of icons for media actions (listen, play, download).

<input checked="" type="checkbox"/>	Call Date	Duration	Caller ID	Source	Dest	Disposition	Media	File Size	Archive Date	Purge Date
