# INSIDE GUIDE

Page 4

## Purpose for a Help Point®

A Help Point® is more than just a call box. Discover how our Help Point® can benefit your location.

Page 6

## Selecting and Configuring Units

Configuring a Help Point® can get overwhelming: 5 easy steps to a final configuration.

Page 8-13

## Help Point® Towers

CB1 Towers, CB5 Slim Towers, CB9 Pedestals, CBRT Rectangular Tower.

Page 14-17

## Help Point® Surface Mounts

CB2 Wall Mounts, CB4 Hooded Wall Mounts.

Page 18-21

## Code Blue Speakerphones

From our small footprint phones, to our Help Point® faceplate phones, our proprietary speakerphone designs mean business.

Page 22 [See what's new!](#)

## Blue Alert® Software

The New Generation is Here. Experience a smarter, faster, and more intuitive Blue Alert® designed for what's next.

Page 24

## Nebula™ Network

Ditch the network headaches. Run your entire Help Point® system on an un-hackable remote private network. Introducing Code Blue's *managed* cloud platform: Nebula™.

Page 26-29

## Build End-to-End Solutions

It's not just a Blue Light phone anymore. See three examples of how Code Blue can help people raise their standard of care on their property.

# PRESENCE WITH PURPOSE

More than just a call box.

## Increase your Presence

Whether you aim to deter or detect suspicious/criminal activity, or you want to be present to assist your patrons, customizing your Help Points can help you provide the presence that fits your need.

## Improve your Response

Whether it is an accident, fire, natural disaster, or someone in need of information or assistance, Code Blue products are designed to empower your personnel to gather information and facilitate a quick & intelligent response.

## Promote your Brand

With customized colors & graphics, you can promote your brand and show your willingness to provide “Help at the touch of a button”.

## Enhance your Customer Service

Quickly and effectively resolving personal emergencies, such as a flat tire, a car that won't start, a malfunctioning gate, or issues with a ticket machine, reflects positively on your brand and customer service ratings.

Where

1. Shopping Centers, 2. Beaches, 3. School Campuses, 8. City Sidewalks, 9. Recreation

# Where do you Help Point®?

1. Campuses, 2. Hospital Campuses, 3. Stadiums, 4. Casinos, 5. Corporate, 6. Transit Systems, 7. Airports, 8. Parking Facilities, 9. Parks, 10. Parks, 11. Airports, 12. Parking Facilities, 13. Parks

## Places with

- **Parking:** Lots, decks, and garages.

- **Entrances:** Guarded or Unmanned.

## Such as...

### Hospitals

- CB1 on sidewalks
- CB2 wall-mounted in parking garages
- CB4 pole-mounted or CB5s in parking lots
- CB5p on parking decks or top deck of garages

### Schools

- CB1 on sidewalks and trails
- CB4 pole-mounted or CB5s in parking lots

### Transit Systems

- CB1 on platforms or at bus stop shelters
- CB2 on underground platform walls
- CB4 call boxes on platforms and in parking lots

### Airports

- CB2 wall-mounted in parking garages or overpasses
- CB4 pole-mounted or CB5s in parking lots
- CB5p on parking decks or top deck of garages
- CB6 or Centry® in concourses and skyways

### Corporations

- CB1 on sidewalks
- CB2 wall-mounted in parking garages
- CB4 pole-mounted or CB5s in parking lots
- CB4 curb-mounted or CB9 at gated entrances

### Cities

- CB1 on sidewalks
- CB2 on bridges and in tunnels
- CB4 pole-mounted or CB5s in parking lots
- CB5p on parking decks or top deck of garages

### Beaches

- CB1 on beaches, piers and/or boardwalks
- CB4 pole-mounted or CB5s in parking lots
- Centry on pavilion walls

### Shopping Centers

- CB1 on sidewalks
- CB2 wall-mounted in parking garages
- CB4 pole-mounted or CB5s in parking lots
- CB5p on parking decks or top deck of garages
- Centry in restroom hallways and food courts

### Stadiums

- CB1 at stadium entrances
- CB4 pole-mounted or CB5s in parking lots
- CB6 or Centry® in perimeter concourses

### Casinos

- CB4 pole-mounted or CB5s in parking lots
- CB5p in parking deck or top deck of garages

### Parks & Recreation

- CB1 on trails

# CONFIGURING HELP POINTS®

As simple - or as robust - as you need it to be.

**1** Decide how your enclosure will be mounted and pick the enclosure model/series best suited for your location.

**Free Standing Series/Models**

- + CB1** CB1e, CB1s, CB1w (pg. 8)
- + CB5** CB5p, CB5s (pg. 10)
- + CB9** CB9s, CB9t (pg. 12)
- +CBRT** (pg. 13)

**Wall or Pole-Mounted Series**

- + CB2** CB2a, CB2e, CB2s (pg. 14)
- + CB4** CB4r, CB4s, CB4u (pg. 16)
- + CB6** CB6 and Speakerphones (pg. 18)

**2** **Select your Help Point® color and graphics.**  
Choose from our standard colors or we can color-match your brand colors in Pantone or RAL. (pgs. 26-27)

**3** **Choose a faceplate and phone.**  
Customize your faceplate and phone with analog or IP, additional buttons, keypads and more. (pgs. 20-21)

**4** **Consider power options and property voltage availability.\*\***  
Know the incoming power and voltage options at the installation site.

**5** **Determine your connection platform.**  
Network management, maintenance and monitoring options. (pg. 24-25)

## Did you know?

### Failover Connectivity

Code Blue offers a multicarrier SIM and eSIM solution for reliable failover backup. Our SIM and eSIM options seamlessly roam between major network carriers to ensure uninterrupted cellular connectivity.

### Faceplate & Speakerphones

Faceplates and speakerphones are sold separately and should be factored into the configuration your Help Point®. This provides greater flexibility in customizing each unit to your specific communication and functionality needs.

# CB1 SERIES

## Tower Enclosures

Designed for

- Sidewalks
- Park trails
- Transit platforms

### Key Features

Its **size** being the most notable feature, the iconic CB1 towers are highly visible. Their presence not only **deters crime**-related events, it offers a convenient source of emergency and/or concierge assistance to patrons.

The steel construction gives our cylindrical Help Points® **unmatched durability**: standing tall and ready to make the call, withstanding vehicle impacts, floods and hurricanes.

### Mounting Kit Options

#### CB1 Foundation Anchor Kit

Template and anchor bolts.

Part # **40058**

#### CB1 Deck Mount Kit

Template, plates, and anchor bolts.

Part # **40215**

# CB5 SERIES

Designed for

- Parking Lots & Decks
- Walkways, Trails

## Economy Enclosures

### Key Features

Our **slim** cylindrical tower Help Point® series are ideal for parking lots or parking decks. These CB5 towers can also be an **economical alternative** to our CB1 series.

The quarter-inch thick steel gives our cylindrical Help Points® **unmatched durability**: standing tall and ready to make the call, withstanding vehicle impacts, floods and hurricanes.

# CB9 SERIES

## Pedestal Enclosures

### Key Features

The same diameter as our CB1 models, this series drops the blue light beacon to offer concierge assistance. The **car and truck-height** 9-t models assist drivers at a gated vehicle entry. A 9-s model serves pedestrians requiring access at building entrances.

The quarter-inch thick steel gives our cylindrical Help Points® **unmatched durability**: standing tall and ready to make the call, withstanding vehicle impacts, floods and hurricanes.

# CB2 SERIES

## Surface Mount Enclosures

Designed for

- Parking Garages
- Bridges and Tunnels

### Alternative Pole Mounting Option

#### CB2 Pole Mount Kit

Mounting bracket  
with banding and  
fasteners.

Part # **40133**

### External Solar Kit

Provide a reliable power supply that  
allows your unit to operate smoothly  
without interruption.

Available for CB2/CB4 enclosures

### Key Features

The inset faceplate design allows  
for a faceplate light, making this  
model ideal for poorly lit areas.

A 4-inch depth makes this model  
ADA compliant.

### Best Application

Wall-mounted or pole-mounted,  
in a hallway, parking garage,  
deck, or lot.

### Key Features

An area light feature makes the  
CB2-s stand out in the dark.

The faceplate light supports  
visibility of the speakerphone  
beneath the deep inset.

### Best Application

Poorly lit parking lots or building  
entrances.

### Key Features

A 4-inch depth makes this model ADA compliant.

### Best Application

Wall-mounted or pole-mounted in a well-lit parking deck, garage or hallway.

### Key Features

This CB2 model offers a built-in paging speaker.

A 4-inch depth makes this model ADA compliant.

### Best Application

Wall-mounted in a well-lit parking deck or garage where an AP system is desired.

### Key Features

This CB2 model features a temperature-controlled, waterproof housing to store and power an AED.

### Best Application

- AED compliance applications:
- Outside K-12 school entrances.
  - On each level of a parking garage.

# CB4 SERIES

## Surface Mount Enclosures

Designed for

- Hallways
- Parking Lot Poles
- Gate Entry Access

### Mounting Kit Options

#### CB4-s and CB4-r Curb Mount Kits

Steel painted curb mount stands. Available in a single or dual for car height and/or truck height applications.

|        |                       |
|--------|-----------------------|
| Part # | (Dual) <b>40777</b>   |
|        | (Single) <b>41462</b> |

#### CB4 Pole Mount Kit

Mounting bracket with banding and fasteners.

|        |              |

| Part # | <b>40027</b> |
|--------|--------------|

### Key Features

Similar in size to the surface-mount speakerphone enclosure, this model sets itself apart with the addition of a low-profile **canopy hood**.

### Best Application

- Mounted in a parking lot or garage.
- Curb-mounted at a shipping/receiving gate.

### Key Features

This CB4-r model adds height to the hood for the addition of **faceplate light**. You can also customize the additional **front face graphic**.

### Best Application

- Mounted in a parking lot or garage.
- Curb-mounted at a shipping/receiving gate.

## Key Features

This CB4-sd is a **dual-opening** unit for the addition of a second speakerphone, directory faceplate, or custom faceplate.

## Best Application

- Mounted in a parking lot or garage.
- Curb-mounted at a shipping/receiving gate.

## Key Features

The **access door** of the CB4-u model gives this unit additional space for IoT devices and batteries.

## Best Application

- Use with **Nightcharge** for switch-grid parking lots. The phone charges at night while the power grid is on, and runs on battery during the day while it's off.

## NightCharge Kit

Alternative backup battery power for switch-grid parking lots.

**Part #** **45006**

# CB6 & SPEAKER PHONES

## In The Wall

### Key Features

The smallest Code Blue enclosure, the CB6 allows the following faceplate enclosure phones to be mounted flush with the wall, or on the wall's surface:

- **IA4100** Analog Speakerphone
- **LS1000** IP Speakerphone
- **LS2000** IP Handset Phone

The phone gains a small footprint look without sacrificing its robust capability.

The CB6-s shines in its ability to receive a cellular connection over a cellular IP antenna.

### SURFACE MOUNT SPEAKERPHONES

### FLUSH MOUNT SPEAKERPHONES

## Key Features

Our smallest speakerphone, the bezel text on this single-button help phone can read “Emergency” or “Push for Help”.

## Best Application

Wall-mounted in a stairwell for an AOR solution.

## Key Features

With enhanced audio quality, this help phone comes as a single or double button with “Emergency” or “Push for Help” bezel text.

## Best Application

Wall-mounted in a stairwell for an AOR solution.

## Key Features

Centry is our smallest Help Point® phone. Featuring ringlit piezo buttons, curved blue beacon light, and camera option.

## Best Application

Wall-mounted at door entrances or pool decks, and hallways for pedestrian & staff use.

# FACEPLATE OPTIONS

## For Enclosure Openings

What kind of help  
do you want to  
provide *at the  
touch of a button?*

Your Help Point® can  
connect your patrons to  
any number of resources,  
people or professionals.

With an engineering and  
telephony team at your  
fingertips, freely push the  
limits of how you can help  
in the name of emergency,  
security, assistance, and  
mobility.

### Directory Faceplate

Stainless Steel faceplate  
frame for a printed media  
such as a directory or flyer.

Part # **40057**

### CUSTOM Faceplate Cut-Out

Integrate additional  
bezel buttons, a  
third-party camera,  
card reader, or  
other technology  
into our blank plates  
with a our faceplate  
cut-out option.

### IMPROVE ACCESSIBILITY

### Hearing Loop Device

Adding a T-loop device to your faceplate  
phone enables the hard-of-hearing to receive  
the audio directly to their hearing aids.

# BLUE ALERT<sup>®</sup>

## Software

The new generation of Blue Alert<sup>®</sup> is here.

Blue Alert<sup>®</sup> is still sending and receiving alerts, but now it goes beyond legacy connection and monitoring by offering expanded features, greater functionality, and flexible platform delivery options.

**NEW**

**BLUE ALERT**  
**PORTAL**

## Your Gateway to Device Monitoring

A versatile emergency management platform for your blue light phone network.

Currently in Beta, Portal offers a web-based GUI that allows users to view device inventory and status, call logs, subscription details, and more. Available exclusively with Code Blue's Nebula Cloud Services.

| Available Formats |  | CONNECT | MONITOR | MOTION | PORTAL | INTERCONNECT |
|-------------------|--|---------|---------|--------|--------|--------------|
| Off-Prem          | <br>Nebula™ Cloud Network               | ●       | ●       | ●      | ●      | ●            |
|                   | <br>ToolVox <b>XS</b> ™ Server          | ●       | ●       |        |        |              |
| On-Prem           | <br>ToolVox <b>XV</b> ™ Virtual Machine | ●       | ●       |        |        |              |
|                   |  |         |         |        |        |              |

*ToolVox **XS** is a hardware appliance that deploys our Blue Alert software and enables connections to various platforms.*

*ToolVox **XV** is a virtual machine that allows the use of existing network hardware as the central hub without additional server installations.*

**NEW**

**BLUE ALERT<sup>®</sup>**  
**INTERCONNECT**

## Connect Anywhere. Reach Anyone.

A cloud-based, fully managed PBX platform that streamlines IP phone deployment eliminating the need for complex on-site infrastructure.

Designed for flexibility and reliability, this robust PBX solution lets you route calls to a security desk, third party answering service, mobile device, or any number of your choice, putting you in full control of how and where calls are handled.

Easily direct calls to 911, a dispatcher, a call center or even a mobile device, depending on your needs.

### Dial Tone

Generate dial tone for Help Point® speakerphones

### IP & Analog

Integrate IP and analog technology for flexible communication

### Paging

Set up emergency paging notifications with ease.

Stay confident that your Help Points® are always operational with features designed to keep you informed and in control.

### Monitor

Remote monitoring lets you know instantly when a unit needs attention

### Diagnostics

Scheduled diagnostics allows you to regularly test system performance

### Notifications

Real-time notifications alert you immediately if a diagnostic fails, so you can take timely action when it matters most.

A secure, cloud-based video recording solution built on world-leading streaming and storage technologies.

### Cloud-based Recording

Automatically stores Help Point®-initiated footage in the cloud for easy, anytime access.

### Notifications

You'll receive email or text notifications whenever a new recording is logged.

### Mobile App

Review event-based recordings wherever you have an internet connection.

---

## Blue Alert® is Evolving.

We're working hard to build new features that help you stay ahead. More innovations are on the way to help your community stay protected and prepared.

What's next might not be on these pages. Visit [www.codeblue.com/blue-alert](http://www.codeblue.com/blue-alert) to see what's new and what's coming soon.

## Still using our Legacy Toolvox X3 software?

Now's the perfect time to upgrade and experience faster performance, stronger reliability, and a more intuitive user experience. Connect with our team today to get started.

# NETWORK

Over

# Nebula

## Your Managed Cloud Platform

Run calls, video, data, and more on a *secure* VPN.

### Problem

When your organization is preparing to onboard our Help Point® products and solutions, one of the biggest concerns can be your network security: *How can you know for sure what network security risks these Help Point® phones might bring?*

### Solution

Being in the security industry - we get it. That's why we've added Nebula™ cloud to our end-to-end solution: ***It's a network off your network.***

Calls, video, software and data - along with anything else you want - can be moved to a separate Nebula™ network for ultimate peace of mind.

### Stay Connected

Code Blue offers multicarrier SIM and eSIM solutions for failover backup. eSIM is built into the device for easy remote setup, and both options switch between major carriers to keep you connected.

Enables...

- ✓ **Cloud-Hosted PBX**  
Blue Alert® Connect over our cloud network.
- ✓ **Cellular SIM Cards**  
Now offering 4G/5G cellular data plans and multicarrier sim cards.
- ✓ **Network Security**  
A secure VPN connection off your network.
- ✓ **Redundant Connectivity**  
Primary and failover communications. **Ask about our back up cellular sim card!**
- ✓ **Quick-Fix for Cabling Issues**  
Avoid trenching costs and leave cable behind.
- ✓ **Multiple Connection Options**  
Wired, Wi-Fi, or cellular connection.
- ✓ **Automatic Updates**  
A fully-managed cloud platform.
- ✓ **Drop Network Maintenance**  
Unless maintenance is something you actually *want* to do; Managed and Consumer packages are available.

# Network Packages

In packages based on your organization's network preferences, management style and size, we seek to provide the scenario that's ideal for you. **Managed**, **Consumer** and **Enterprise** Cloud packages provide a remote Nebula™ cloud network for storing Blue Alert® software - and more - off your local network. **Private** Cloud keeps Blue Alert® software on your own local network via server appliance or VM.

Place devices anywhere, with or without existing phone or data lines.

# CUSTOMIZE AN EXPECTAT

## The Visual Psychology of Help

Blue light beacon phones have historically symbolized emergency help. With additional creativity your Help Point® can help in other ways.

Your brand colors and logo not only symbolize your ownership of the blue light phone, they also establish trust and familiarity with it, increasing the likelihood of its use for more than just emergency situations.

The presence of your brand can challenge their assumption that it only calls 9-1-1 or security. This opens more doors of curiosity, causing them to ask:

- “When can I use this?”
- “Who might this call?” or
- “What might this help me do?”

It’s important to answer those questions as quickly as possible through the color, text and graphic elements of your Help Point® design.

Will your Help Point® ...

*Did you know our clearcoat paint option increases the corrosion resistance of your Help Point® and **increases your Warranty**?*

## Side Text

The large reflective text labeling the side of your Help Point® should be used to tell them **who's help** or **what kind of help** they will be getting connected to.

## Bezel Text

The text on the call button's bezel further confirms or differentiates the type of call they can make. Models with multiple faceplate openings give way to several bezel text opportunities.

## Paint Process

Our intensive multi-coat paint process begins with a one-component organic zinc rich primer that provides excellent corrosion resistance and is finished with topcoat baked-on polyurethane enamel for maximum durability and longevity.

Choose from our library of standard colors, or have us color-match your exact brand colors in Pantone or RAL.

## Graphics

Add vinyl and silkscreen graphics of your logo and other design details to customize your Help Point®.

# DEVELOP YOUR SOLUTION

## Cloud-Based AOR

Cloud-based Blue Alert® Connect and Blue Alert® Monitor can be utilized with IP- and analog-based Area of Refuge\* solutions.

An AOR system provides building stairwells with reliable two-way communication, allowing first responders to assist individuals who cannot evacuate or may require additional assistance.

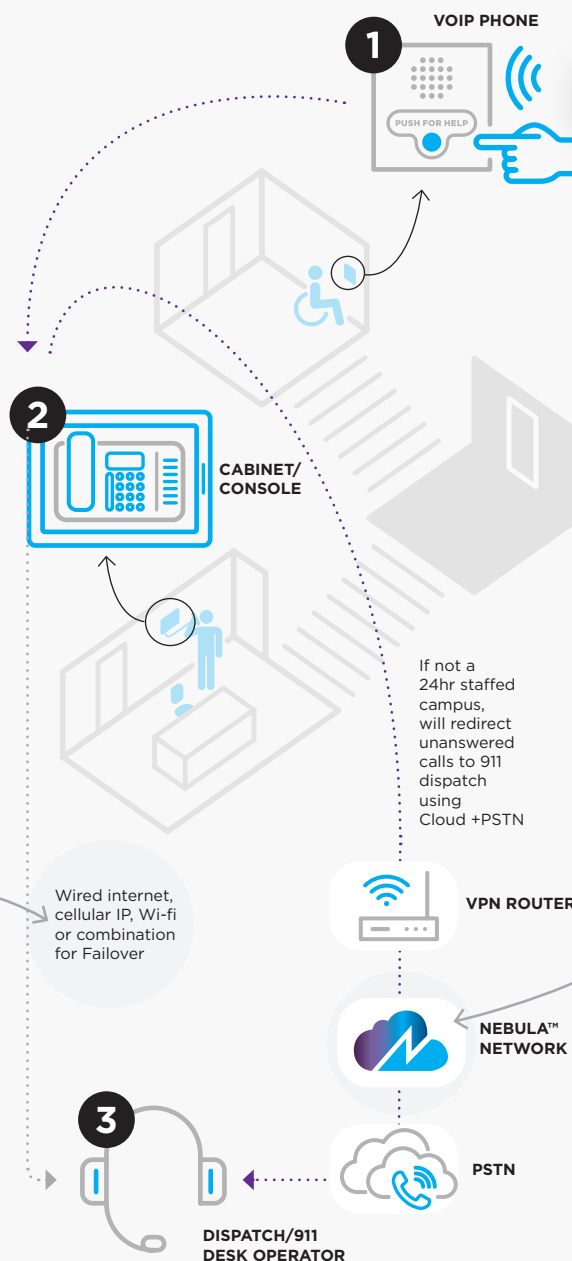

*\*sometimes called Area of Rescue*
