

NEW for 2020!

The **CB 2-e** has been redesigned to make it easier to install and more economical.

One of Code Blue's most popular wall-mounted Help Points®, the CB 2-e features a lightweight, two-piece design that makes installation and maintenance easy for a single person. Additionally, it delivers a

4-inch depth that is slim enough to be ADA compliant on any wall, making it an ideal match for high-traffic areas like parking garages, building entrances and more.

Features:

- Slimmed down to ADA-compliant 4-inch depth
- Two-piece construction for easy installation
- Lighter gauge stainless steel
- Economical
- Short lead times
- Available in wet coat paint colors or optional powder coat safety blue

The Legacy CB 2-e design is still available as a modification.

- **Note:** More costly
- PAS, AED Housing options also remain available
