

# Why Code Blue?

## What makes us the ideal choice?

### Design the Right Solution

Your location is unique, and your requirements are varied. We can work with you to tailor our products and services to fit your needs. Whether it's a network or power connection, or the aesthetics of an end point, we are happy to work with you to find the right solution.

### Industry Experience

Our team of knowledgeable experts are prepared and available to answer your questions (pre and post sales). We focus heavily on design and consultation expertise, identifying the most effective products and services for your location and providing recommendations for solutions deployed in campuses with like communication needs.

### Partnership

From sales partnerships to sophisticated integrations between Code Blue products and other industry leading solutions, our "open source" mentality allows us to work with others to provide the best possible solution for our end-user customers.

### Your Brand

Our durable, vandal-resistant, highly visible products also act as a crime deterrent, making an area less attractive to criminals and helping to keep people safe beyond the "feeling" of safety. Communication and reporting applications can provide you with incident reports from before an event occurs to a post-event review process.

### About Code Blue

Located in Holland, Michigan, the industry pioneering manufacturer of emergency communication solutions provides assistance to people by handcrafting products that are reliable and accessible.

### Why We're Unique

From our iconic blue light phone pedestals to our latest cloud-based solutions, we help people feel safe by offering durable and visible security solutions that provide help at the touch of a button, while assisting first responders before, during and after an incident with **a complete end-to-end system** that utilizes alerting, managing, archiving and responding technology.

# Products & Services

## Help Point Enclosures

Freestanding or  
Surface mounted

Their presence not only **deters crime**-related events, but also offers a convenient source of emergency and/or concierge assistance to patrons.

## Emergency Phones

With analog and VoIP technology, it can match any network needs.

**Reliable communication** for operational activities and emergencies.

## System Management Software

Blue Alert Software

Our **connection and monitoring capabilities** have evolved. Elevate your state of awareness with Blue Alert Connect, Monitor and Motion.

### Nebula Cloud

it's a network *off* your network

Run calls, video, data and more on a secure VPN. And connect multiple devices to your cloud.

## Innovating for the Future

As we are utilizing more powerful and sophisticated technology, we have developed our technical support team capabilities to support our established Integrator Partners, as well as helping start-up entrepreneurs in designing, creating, and integrating solutions that can be configured to provide access to private and public sources of immediate help, information, and intelligent response.

We are working on bringing more services of value to and from our units; for the property owner/operator and their staff, for the public on the property, and those needing to quickly navigate the property and its building in an efficient manner.

## Energy Efficient

Most recently Code Blue has expanded its products and services to provide telephony expertise and cloud connectivity that provides power and communications *anywhere under the sun* through its wireless, "no trenching required" solar units.
