product catalog

An interrupted connection can cause an inconvenience to anyone on your property and can negatively affect your brand. Increase your network availability with our multicarrier sim card and maintain connection continuity.

A high availability connection assures your **Help Point®** stays connected and continue assisting visitors. Our affordable multicarrier sim card will roam between major networks for a continuous seamless connection.

Add our multicarrier sim card as your back up for a Redundant Connection!

Redundancy is all about connection continuity. When you have a redundant connection you enable uninterrupted help to your patrons and visitors.

Automatic Failover Benefits

- **Increased uptime:** Can help to reduce network downtime, which can save businesses money and improve customer satisfaction.
- **Improved performance:** When primary network fails, cellular automatic failover can help to improve network performance.
- **Increased security:** Can help make it more difficult for attackers to take down a critical network component.
