Code Blue®

CREATE A SAFER LEARNING ENVIRONMENT

Protecting our Future

K-12 schools face increasing threats that disrupt learning environments and jeopardize the safety of students, faculty, and staff. Aging infrastructure, outdated security systems, and limited access to modern communication tools remain major challenges across campuses today.

Here to Help

Let Code Blue support your school's safety efforts with powerful tools like two-way communication, audio paging, visual alerts, and video verification, all integrated through our cloud-based platform to modernize your security system.

Our solutions are designed to help schools address a wide range of threats, including cyber attacks, bullying, substance abuse, and more.

○ **Security System Enhancement**
Upgrade your security and access control with Blue Alert® System Management Tools.

○ **Audio paging & two-way communication**
Boost campus-wide communication with our new Audio Paging System, enabling real-time announcements and direct two-way interaction.

○ **Increase safety & security presence**
Highly visible, our units, regardless of size, serve as a powerful deterrent to unwanted behavior and provide a clear connection to help.

○ **Capture Key Moments**
Pair your units with Blue Alert® Motion to view, playback & download event-based clips.

CODE BLUE SOLUTIONS

Code Blue has a powerful communication and video monitoring system that will enhance any K-12 security system.

CENTRY

Recommended for entry points and classroom security.

Our smallest Help Point® phone with a powerful station beacon light, robust IP video, and emergency phone capabilities.

Features:

- Ring-lit piezoelectric button
- Full duplex communication
- Vandal-resistant scews
- Optional faceplate camera

CB1 Series

Recommended for indoor/outdoor K-12 environments.

Our most iconic tower, its size being the most notable. Their presence alone deters crime-related events and offers a convenient source of help and assistance.

Features:

- Durable steel
- LED faceplate light & beacon/strobe lights.
- Audio paging and camera mounting accessories available
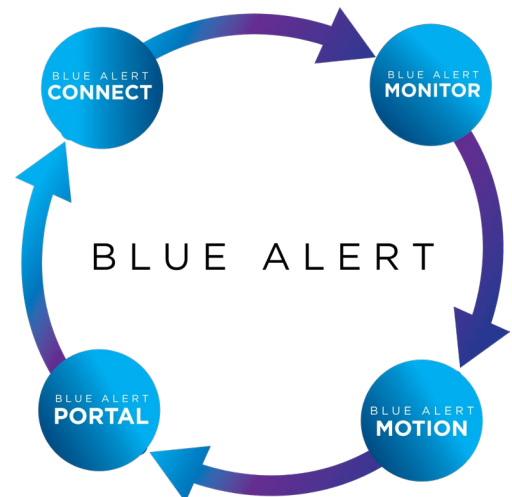

Connecting A Safe School

Utilize our Blue Alert® System Management Tools to elevate your security systems.

Our software applications offer unique real-time monitoring and reporting options, effectively acting as a hub for connecting devices. It also provides connections to PBX, public telephone (PSTN) and Internet (ISP) networks, in addition to third party security platform.

Use Blue Alert applications through our Nebula Cloud and run calls, videos, data and more on a secure VPN.
