

Summary

Code Blue's Nebula Cloud solutions are an effective way to provide communication for emergency speakerphones. The robust platforms act as your centralized hub for secure, scalable, and smart emergency speakerphone connectivity.

Three Powerful Options

Managed Cloud: Optimized for compact deployments, this streamlined solution delivers direct cloud connectivity, backed by expert setup and continuous support from Code Blue.

Enterprise Cloud: Designed for larger deployments, this high-capacity solution combines hybrid cloud capabilities with local integration, offering comprehensive configuration management and full Code Blue support.

Consumer Cloud: Enterprise-grade tools for those who prefer hands-on control. Optional management add-on available for extra support.

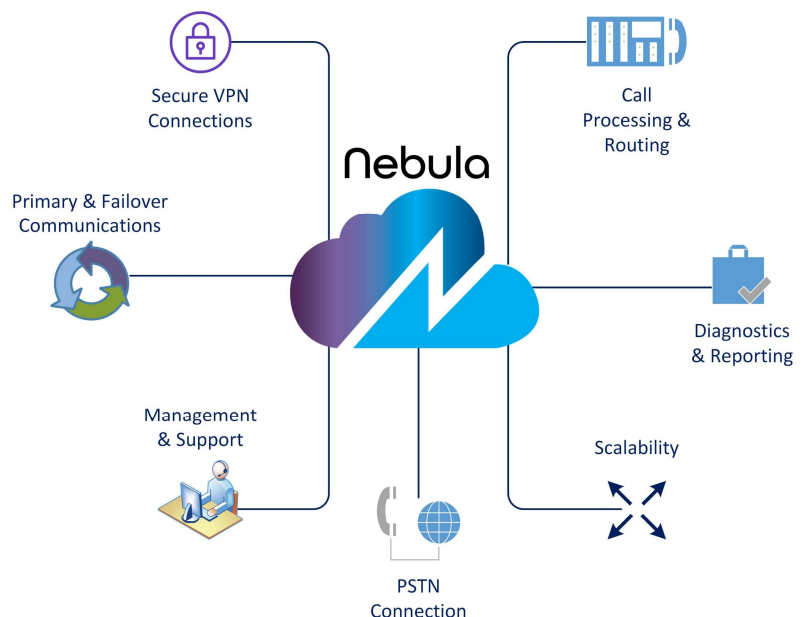

Robust Features That Deliver

Connection Options

- ✓ Multiple Connection Options: LAN, WAN, Wi-Fi, 4G LTE/5G
- ✓ Cloud-Based SIP Registration
- ✓ DID/e911 & Extension-to-Extension Call Routing
- ✓ Diagnostics & Secure Connections
- ✓ Multi-Site Centralization
- ✓ IP & Analog Device Support

Smart Systems Management

- ✓ Fully Managed Services
- ✓ Custom Engineering & Technical Support
- ✓ Superior Performance & Service
- ✓ Pre-Configured Units for Plug-and-Play Setup

Why Choose Nebula Cloud?

Futureproof Your Infrastructure

Stay ahead of the curve with automatic software updates, managed services, and zero-hassle administration. No more manual upgrades or training headaches, just seamless performance.

Flexibility

Our solution offers substantial reductions in network infrastructure expenses, as well as minimized requirements for Customer Premise Equipment (CPE).

Scalability

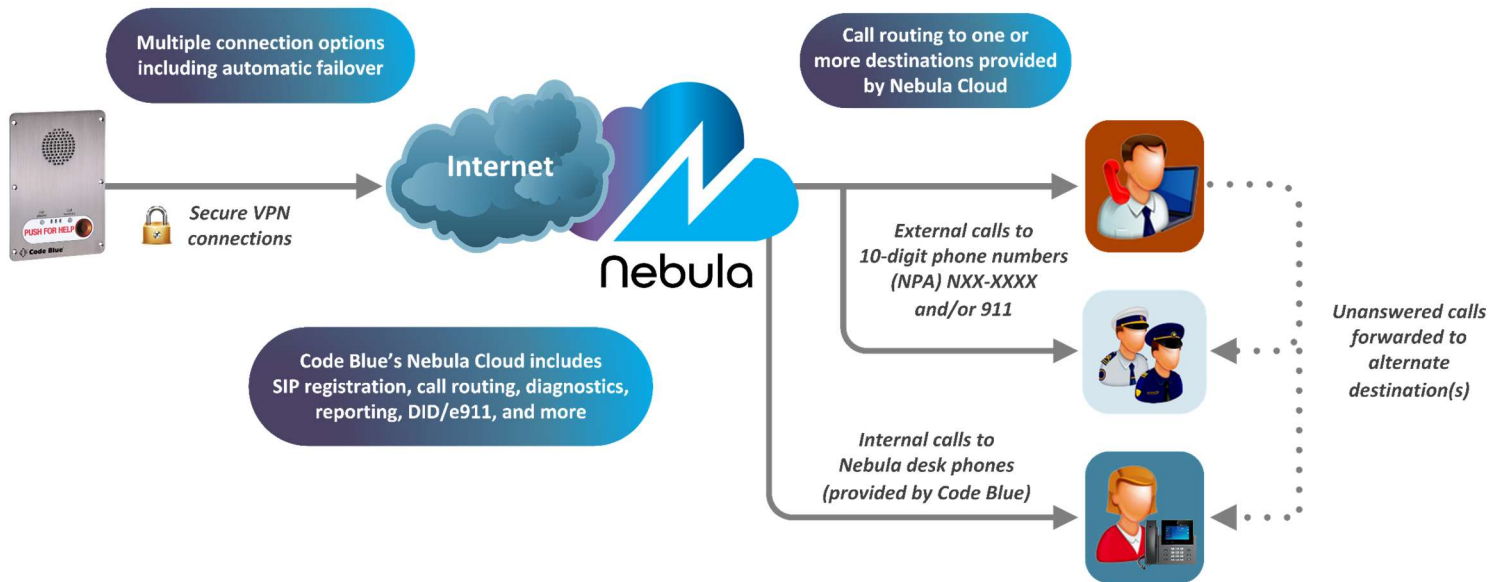

From single-location deployments to extensive enterprise networks, Nebula Cloud delivers scalable, intelligent infrastructure without the complexity.

Ease of Installation

Pre-configured units mean fast installation and minimal setup. Get up and running without IT bottlenecks or complex provisioning.

Ensure No Call Goes Unanswered

Connect emergency calls to any number of destinations with Nebula's intelligent routing. Whether it's dispatch, 911, or a backup location, Nebula ensures your calls reach the right responder...every time.

Optional Enhancements

- ✓ Redundant Call Routes & Connections
- ✓ Priority Call Routing
- ✓ Audio Paging Software
- ✓ SIP Desk Phones for Cloud-Based Dispatch
- ✓ Solution Design Assistance

Ready to Upgrade Your Emergency Communication?

Nebula Cloud isn't just a product, it's peace of mind, engineered for the future. Whether you're scaling across campuses or modernizing legacy systems, Code Blue delivers unmatched reliability and support.
